

ART TILE

Employees

Interested in finding out a little more about the people that represent Art Tile Co.? Take a look below to get a little information on our employees.

MARC

Marc has worked for us for years. He is another guy who will go above and beyond to make your tile experience a good one. In fact he is the one you can often find working after hours to get things just right. He volunteers in our community and is a very active dad of 2 small kids. Oh yeah, he's the one who has a lot to do with the "ever changing" floor. Don't ask him about his Beagle.

PETE

Pete is our all around fun loving guy. He will go above and beyond to make your tile order just right. He also loves a mystery. He will search things out until he has the BEST answer. Although he still hasn't figured out who "borrowed" the IMAC keyboard. When not teaching our classes or solving problems, he can be found bopping around the sound on a sailboat, his new passion. Ahoy matey!

MARY

Now Mary is one that is hard to describe. And she would tell you no photo is necessary as she is the only girl on the floor. An artist by trade, Mary has the eye for design and color. The artistic flair she brings to the table is a huge asset for us and our customers love her. Mary also shares her expertise by teaching our mosaic classes. Flamboyant, eccentric and just a hoot! That's our Mary.

AARON

CLIFF

Cliff would rather be riding his bike down a long country road or skiing at Stevens, but when he is at work he gives his customers 100% of his time and attention. He's been at this since 1979 so he knows his stuff. But for the ultimate conversation ask him about his bike.

Norm

There is over 30 years of tile knowledge in the Great Bearded One's head, 25 of those with Art Tile. Norm can answer the most technical of questions, but he also knows the most random of all tile stuff. A great one to ask about old tile. When he isn't thinking about tile, he is feeding his chickens or playing with his brand new grandson. He loves being a grandpa!
